My daughters reminded me today as we were driving to school that we only have 17 school days left before summer vacation! Yikes! Where did the year go?

Spring is coming into full bloom and the activity level around the Grove is in full bloom too. Our classrooms are a bustle of unique activities and end of the year projects, it is hard to keep up.

Lead by our incredible teachers and staff, each school day is so full and rich. These days are accented by our PE, art and music specials. But on top of these, the last months have been filled with even more extra activities intended to inspire and rouse our children’s love for learning and quest for more knowledge and understanding.

• 3rd graders - Pequot Museum
• 6th graders - Philadelphia - senior trip
• 9-12 classroom - Keri Boucher works with wool
• After school Soccer club

The stork has a full time job around here. We are thrilled to welcome: Alexander, little brother to Devon Slavic and Lucy, little sister to Julia and Stella Trindade.

Luther Hine and Hudson Drew of the 3-6 room will soon take on the responsibility of older brother too! It will be a busy summer!

Lots of things are happening in the next 17 school days! Here are a few reminders:
